ABOUT PRINTING THE K-8 MANUAL:

Dear Educator:

You may print from individual PDF's as needed (black ink is recommended, because you can always refer to the original color PDF for instruction). You have permission to print a complete notebook, following the limited copyright notice stated on the copyright page and on the back of the CD case.

Two printable PDF's are included on the CD for your convenience:

1. a PDF of patterns, posters, and worksheets in black ink ready for printing, requiring a 1.5 inch three ring binder;
2. the complete color PDF to be printed in black ink, requiring a 3.5-4 inch three ring binder. Request black ink only and three hole punch if you take the CD to a printer.

I recommend UPS printing services. At the time of this notice, discount cards can be purchased that enable printing black and white pages for only \$.05 per page. Color pages are at regular price. The cost of printing the entire curriculum in black ink is approximately \$26.00; the patterns group is approximately \$10.00 at \$.05 per page.

Remember to import the PDF's to your computer and save the CD's for back-up and to take to the printer.

Artfully,

A handwritten signature in black ink that reads "Diane".
